

**COMPETE.  
SAVE.  
WIN.**

“ Companies taking the boldest steps on climate action are 2.4 times more likely to report significantly higher-than-expected financial value as a result of their climate initiatives. ”

— Ernst & Young

Organizations with a commitment to decarbonization, or the reduction of carbon emissions from human systems and activities, can reduce costs, see higher returns, gain an edge for top talent, and improve resilience against extreme events that impact operations.

## **Competition dates: December 4, 2023 - June 28, 2024**

Sprint ahead! Compete in the Carbon Reduction Sprint, a free and friendly 6-month competition for businesses, organizations, and municipalities to jumpstart progress on carbon-emissions reduction and earn recognition for their achievements! Organizations from multiple sectors and at any stage of sustainability advancement are eligible to participate!
