Social Media Best Practices

When you participate in Social Media on behalf of your restaurant, be aware that you are representing the restaurant in the same way as you would in any other public forum.

Therefore, it is important to remember the following guiding principles:

- 1. Transparency** – When responding to a post identify yourself, write in the first person, and don't be afraid to show your personality.
- 2. Honesty** – Do not make false or misleading comments/statements. If you have made a mistake, take responsibility for it.
- 3. Respectfulness** – Exercise discretion and confidentiality when referring to your colleagues and customers. Do not post proprietary information and/or content unless you have permission to do so.
- 4. Add Value** – Stick to what you know, post meaningful comments, and aim for quality not quantity.
- 5. Be Diligent** – Check your sources, separate opinions from facts and identify all copyrighted or borrowed material with citations and links.
- 6. Stay Engaged** - Stay informed, post regularly, and respond to comments in a timely manner.
- 7. Protect your Privacy** – Never disclose your personal information or that of another staff member or customer without explicit permission.
- 8. Be Polite** - Don't pick fights and avoid personal attacks.
- 9. Use Common Sense** – Once it's posted it's there for good. Be sure to review your posts thoroughly and use spell check.
- 10. Use ALL CAPS Appropriately** – Typing an entire post in all caps is equivalent to shouting at someone. Use capitalization if you are trying to emphasize a particular section of your post.
